Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-20, drawn to generating facial models and modifying models of eyeglasses to fit the facial model, execute commerce transactions, and track user preferences to, among other things, generate and deliver specialized marketing to customers, and is properly classified in 345/630.

Group II, claims 58-64 and 93-99, drawn to creating 3D models of eyeglasses, and is properly classified in 382/154.

Group III, claims 21-57, 65-74, 80-92, 100-109 and 115, drawn to creating facial models and model manipulation, and is properly classified in 345/420.

Group IV, claim(s) 75-79, 110-114 and 116, drawn to the business method and practice, which includes tracking users preferences, current fashion trends, and purchasing and shipping information, and is properly classified in 705/10.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I does not require the details of creating eyeglass models as in Group II, nor does Group I require the details of the facial modeling as required by Group III, nor the details of the business methods and practices disclosed in Group IV.

Similarly, Group II does not require the details of facial modeling or the business practices of Group I, the details of the facial modeling of Group III, or the details of the business practices of Group IV.

Art Unit: 2628

Group III does not require the details of the business practices of Groups I or IV, nor does it require the details of eyeglass modeling of Group II.

Group IV does not require the details of the facial modeling of Groups I and II, nor does it require the details of eyeglass modeling of Group II.

A telephone call was made to Jae Park on 31 May 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include:

1. An election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and
2. Identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 2628

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Crystal Murdoch whose telephone number is (571) 270-1043. The examiner can normally be reached on Mon. - Fri. 7:30a - 5:00 (off every other Fri.). If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Zimmerman can be reached on (571) 272-7653. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
